University of Computer Studies ( Hpa-an )

## FEEDBACK SUMMARY REPORT

Date: April 6, 2025

Compiled by: Feedback Administrator

This report compiles notable student feedback received during the current semester. It is intended to inform the relevant departments of issues and suggestions raised by students to enhance the academic and campus experience.

### **1. Room 204 Equipment Malfunction**

Students from various classes have reported that the projector in Room 204 is not operational, and the air conditioning system fails to maintain a comfortable environment. These conditions are disrupting the learning experience.

**Action Required:** Facilities Maintenance Department

### **2. Low Engagement in CS101 Lectures**

Feedback from students indicates a lack of interactivity in CS101 sessions. Recommendations include integrating more practical examples, open discussions, and occasional group activities to improve engagement.

**Action Required:** Academic Affairs / Course Instructor
